Where do research ideas come from?

MARCH 5 | 10:00-11:30 A.M. | CLEARIHUE C112

An interdisciplinary panel of post-doctoral fellows share personal stories and reflections on the theme of generating research ideas. These “up-and-coming” researchers are fresh off the dissertation trail and at the cusp of cutting edge ideas, theories and technologies.

Where are the seeds for big ideas planted and how are they fostered and fed? Come and explore the connections between research ideas and the experiences, people and places that fuel them.
